REMARKABLE ON-ROAD & OFF-ROAD EQUIPMENT

For the hardcore angler-camper and travel enthusiast—Hannibal Roof Racks and other accessories are just catching on in parts of North America, after years of superior performance in Africa and other parts of the world. The racks allow preparing for just about any off-road or on-road contingency—easily carry a Hi-Lift Jack, shovels, Jerry Cans. The coolest option is the Rooftop Tent, pioneered for safari use in Africa. Remove the travel cover, flip over the floor panel, and the tent pops open. Equipment presently is available for Nissan, Toyota, Isuzu, Hummer, Mercedes, Land Rover, Jeep vehicles and a few more.

Contact www.HannibalUSA.com, or call 8664X4RACK.
